

## SEED launches the V40 glass partition: the perfect balance between aesthetics, simplicity and performance

**Poilly ,19 january 2026** – SEED is expanding its SYMPHONEE range with the launch of the **V40** glass partition, a new system designed to meet the needs of interior design and carpentry professionals looking for a solution that **is elegant, functional and easy to install**. V40 strikes the perfect balance between **Art Deco design, simplicity of manufacture and high-quality finish**.

The **V40 glass partition** is a continuation of existing SEED solutions. It uses the **same accessories as the V30 and the same assembly bracket as the V70**, allowing professionals to work with familiar components. This strategic choice aims **to limit the number of items to be stocked**, simplify supply management and **ensure quick handling**, while maintaining smooth and controlled implementation.

### Art Deco design for all configurations

With its slim **40 x 50 mm** profiles, the V40 glass partition features a **sleek design** inspired by **Art Deco style**, combining straight lines and curves to suit all interior design projects. It is available as **a glass partition on half-wall, full height or with an angle**, for a decidedly high-end look.

## **\*\*Press release\*\***

*\* For immediate release \**

The system accepts a **centred infill of 6 to 8 mm**, in glass or decorative panel, offering great creative freedom and perfect consistency with the identity of the spaces.

### **Seamless integration of the swing door**

Designed as a complete and coherent system, the V40 glass partition is **compatible with the swing door from our HARMONEE range**. It allows for seamless integration, **with or without a transom, using visible or invisible hinges**, depending on the desired aesthetic effect. The choice of locks – roller, bolt or magnetic – as well as the numerous **customization** options (crossbars, flat profiles, curved profiles) offer professionals great design freedom, while ensuring perfect harmony between the glass partition and the door.

### **A glass partition designed for professionals**

With the V40, SEED confirms its commitment to supporting interior design and carpentry professionals in their projects by offering a **reliable, customisable and easy-to-work-with system** that can be adapted to a wide variety of configurations and uses.
